WEB DEVELOPER

Web Developer with 1+ year of experience in Angular and Spring Boot. Skilled in building responsive and scalable web applications, covering both frontend and backend development. Experienced in working with REST APIs, authentication (JWT, RBAC), and databases. A quick learner and team player focused on delivering clean, user-friendly solutions.

KEY SKILLS

Frontend Development (Angular, HTML, CSS, JavaScript, Bootstrap)	Backend Development (Spring Boot, REST APIs, Java, PHP)	Version Control (Git, GitHub, GitLab)
Responsive Web Design	Database Management (MySQL, PostgreSQL)	Team Collaboration

EXPERIENCE

Aadim Innovation

Feb 2025 - Sep 2025

Java Backend Developer

- Contributed to College Hub Nepal, a platform connecting students with colleges by providing course, admission, and universities information.
- Developed features such as admission management, ad management, and college ranking modules.
- Wrote and documented REST APIs with Swagger for better developer collaboration.
- Occasionally contributed to the Angular frontend, consuming CRUD REST APIs.

Aadim Innovation

Jan 2024 - Jan 2025

Software Developer Intern

- Built and maintained full-stack web applications using Angular and Spring Boot.
- Implemented Spring Security with JWT authentication and RBAC authorization to ensure secure access control.
- Enhanced backend reliability with logging, auditing, scheduling, and database backup mechanisms (using Logback and schedulers).
- Collaborated with the development team to deliver projects following best coding practices.
- Developed key projects including: Intern Check-In/Check-Out System, School CMS (Content Management System)

EDUCATION & CERTIFICATIONS

Bachelor of Computer Application

Aadim National College
Chabahil, Kathmandu
